

Part A: Informed Consent, Release Agreement, and Authorization

Full name: _____
 DOB: _____

High-adventure base participants:
 Expedition/crew No.: _____
 or staff position: _____

Informed Consent, Release Agreement, and Authorization

I understand that participation in Scouting activities involves the risk of personal injury, including death, due to the physical, mental, and emotional challenges in the activities offered. Information about those activities may be obtained from the venue, activity coordinators, or your local council. I also understand that participation in these activities is entirely voluntary and requires participants to follow instructions and abide by all applicable rules and the standards of conduct.

In case of an emergency involving me or my child, I understand that efforts will be made to contact the individual listed as the emergency contact person by the medical provider and/or adult leader. In the event that this person cannot be reached, permission is hereby given to the medical provider selected by the adult leader in charge to secure proper treatment, including hospitalization, anesthesia, surgery, or injections of medication for me or my child. Medical providers are authorized to disclose protected health information to the adult in charge, camp medical staff, camp management, and/or any physician or health-care provider involved in providing medical care to the participant. Protected Health Information/Confidential Health Information (PHI/CHI) under the Standards for Privacy of Individually Identifiable Health Information, 45 C.F.R. §§160.103, 164.501, etc. seq., as amended from time to time, includes examination findings, test results, and treatment provided for purposes of medical evaluation of the participant, follow-up and communication with the participant's parents or guardian, and/or determination of the participant's ability to continue in the program activities.

(If applicable) I have carefully considered the risk involved and hereby give my informed consent for my child to participate in all activities offered in the program. I further authorize the sharing of the information on this form with any BSA volunteers or professionals who need to know of medical conditions that may require special consideration in conducting Scouting activities.

With appreciation of the dangers and risks associated with programs and activities, on my own behalf and/or on behalf of my child, I hereby fully and completely release and waive any and all claims for personal injury, death, or loss that may arise against the Boy Scouts of America, the local council, the activity coordinators, and all employees, volunteers, related parties, or other organizations associated with any program or activity.

I also hereby assign and grant to the local council and the Boy Scouts of America, as well as their authorized representatives, the right and permission to use and publish the photographs/film/videotapes/electronic representations and/or sound recordings made of me or my child at all Scouting activities, and I hereby release the Boy Scouts of America, the local council, the activity coordinators, and all employees, volunteers, related parties, or other organizations associated with the activity from any and all liability from such use and publication. I further authorize the reproduction, sale, copyright, exhibit, broadcast, electronic storage, and/or distribution of said photographs/film/videotapes/electronic representations and/or sound recordings without limitation at the discretion of the BSA, and I specifically waive any right to any compensation I may have for any of the foregoing.

NOTE: Due to the nature of programs and activities, the Boy Scouts of America and local councils cannot continually monitor compliance of program participants or any limitations imposed upon them by parents or medical providers. However, so that leaders can be as familiar as possible with any limitations, list any restrictions imposed on a child participant in connection with programs or activities below.

List participant restrictions, if any: None

I understand that, if any information I/we have provided is found to be inaccurate, it may limit and/or eliminate the opportunity for participation in any event or activity. If I am participating at Philmont, Philmont Training Center, Northern Tier, Florida Sea Base, or the Summit Bechtel Reserve, I have also read and understand the supplemental risk advisories, including height and weight requirements and restrictions, and understand that the participant will not be allowed to participate in applicable high-adventure programs if those requirements are not met. The participant has permission to engage in all high-adventure activities described, except as specifically noted by me or the health-care provider. If the participant is under the age of 18, a parent or guardian's signature is required.

Participant's signature: _____ Date: _____

Parent/guardian signature for youth: _____ Date: _____

(If participant is under the age of 18)

Second parent/guardian signature for youth: _____ Date: _____

(If required; for example, California)

Complete this section for youth participants only:

Adults Authorized to Take to and From Events:

You must designate at least one adult. Please include a telephone number.

Name: _____

Name: _____

Telephone: _____

Telephone: _____

Adults NOT Authorized to Take Youth To and From Events:

Part B: General Information/Health History

Full name: _____

High-adventure base participants:

Expedition/crew No.: _____

or staff position: _____

DOB: _____

Age: _____ Gender: _____ Height (inches): _____ Weight (lbs.): _____

Address: _____

City: _____ State: _____ ZIP code: _____ Telephone: _____

Unit leader: _____ Mobile phone: _____

Council Name/No.: _____ Unit No.: _____

Health/Accident Insurance Company: _____ Policy No.: _____

Please attach a photocopy of both sides of the insurance card. If you do not have medical insurance, enter "none" above.

In case of emergency, notify the person below:

Name: _____ Relationship: _____

Address: _____ Home phone: _____ Other phone: _____

Alternate contact name: _____ Alternate's phone: _____

Health History

Do you currently have or have you ever been treated for any of the following?

Yes	No	Condition	Explain
		Diabetes	Last HbA1c percentage and date:
		Hypertension (high blood pressure)	
		Adult or congenital heart disease/heart attack/chest pain (angina)/heart murmur/coronary artery disease. Any heart surgery or procedure. Explain all "yes" answers.	
		Family history of heart disease or any sudden heart-related death of a family member before age 50.	
		Stroke/TIA	
		Asthma	Last attack date:
		Lung/respiratory disease	
		COPD	
		Ear/eyes/nose/sinus problems	
		Muscular/skeletal condition/muscle or bone issues	
		Head injury/concussion	
		Altitude sickness	
		Psychiatric/psychological or emotional difficulties	
		Behavioral/neurological disorders	
		Blood disorders/sickle cell disease	
		Fainting spells and dizziness	
		Kidney disease	
		Seizures	Last seizure date:
		Abdominal/stomach/digestive problems	
		Thyroid disease	
		Excessive fatigue	
		Obstructive sleep apnea/sleep disorders	CPAP: Yes <input type="checkbox"/> No <input type="checkbox"/>
		List all surgeries and hospitalizations	Last surgery date:
		List any other medical conditions not covered above	

Part B: General Information/Health History

Full name: _____
 DOB: _____

High-adventure base participants:
 Expedition/crew No.: _____
 or staff position: _____

Allergies/Medications

Are you allergic to or do you have any adverse reaction to any of the following?

Yes	No	Allergies or Reactions	Explain	Yes	No	Allergies or Reactions	Explain
		Medication				Plants	
		Food				Insect bites/stings	

List all medications currently used, including any over-the-counter medications.

CHECK HERE IF NO MEDICATIONS ARE ROUTINELY TAKEN. IF ADDITIONAL SPACE IS NEEDED, PLEASE INDICATE ON A SEPARATE SHEET AND ATTACH.

Medication	Dose	Frequency	Reason

YES NO Non-prescription medication administration is authorized with these exceptions: _____

Administration of the above medications is approved for youth by:

_____/_____
 Parent/guardian signature MD/DO, NP, or PA signature (if your state requires signature)

!

Bring enough medications in sufficient quantities and in the original containers. Make sure that they are NOT expired, including inhalers and EpiPens. You SHOULD NOT STOP taking any maintenance medication unless instructed to do so by your doctor.

!

Immunization

The following immunizations are recommended by the BSA. Tetanus immunization is required and must have been received within the last 10 years. If you had the disease, check the disease column and list the date. If immunized, check yes and provide the year received.

Yes	No	Had Disease	Immunization	Date(s)	Please list any additional information about your medical history:
			Tetanus		
			Pertussis		
			Diphtheria		
			Measles/mumps/rubella		
			Polio		
			Chicken Pox		
			Hepatitis A		
			Hepatitis B		
			Meningitis		
			Influenza		
			Other (i.e., HIB)		
			Exemption to immunizations (form required)		

DO NOT WRITE IN THIS BOX
 Review for camp or special activity.

Part C: Pre-Participation Physical

This part must be completed by certified and licensed physicians (MD, DO), nurse practitioners, or physician assistants.

Full name: _____

DOB: _____

High-adventure base participants:

Expedition/crew No.: _____
or staff position: _____

You are being asked to certify that this individual has no contraindication for participation inside a Scouting experience. For individuals who will be attending a high-adventure program, including one of the national high-adventure bases, please refer to the supplemental information on the following pages or the form provided by your patient.

Examiner: Please fill in the following information:

		Yes	No	Explain							
Medical restrictions to participate											
Yes	No	Allergies or Reactions		Explain		Yes	No	Allergies or Reactions		Explain	
		Medication						Plants			
		Food						Insect bites/stings			

Height (inches): _____ Weight (lbs.): _____ BMI: _____ Blood Pressure: _____ / _____ Pulse: _____

	Normal	Abnormal	Explain Abnormalities
Eyes			
Ears/nose/throat			
Lungs			
Heart			
Abdomen			
Genitalia/hernia			
Musculoskeletal			
Neurological			
Other			

Examiner's Certification

I certify that I have reviewed the health history and examined this person and find no contraindications for participation in a Scouting experience. This participant (with noted restrictions):

True	False	Explain
		Meets height/weight requirements.
		Does not have uncontrolled heart disease, asthma, or hypertension.
		Has not had an orthopedic injury, musculoskeletal problems, or orthopedic surgery in the last six months or possesses a letter of clearance from his or her orthopedic surgeon or treating physician.
		Has no uncontrolled psychiatric disorders.
		Has had no seizures in the last year.
		Does not have poorly controlled diabetes.
		If less than 18 years of age and planning to scuba dive, does not have diabetes, asthma, or seizures.
		For high-adventure participants, I have reviewed with them the important supplemental risk advisory provided.

Examiner's Signature: _____ Date: _____

Provider printed name: _____

Address: _____

City: _____ State: _____ ZIP code: _____

Office phone: _____

Height/Weight Restrictions

If you exceed the maximum weight for height as explained in the following chart and your planned high-adventure activity will take you more than 30 minutes away from an emergency vehicle/accessible roadway, you may not be allowed to participate.

Maximum weight for height:

Height (inches)	Max. Weight	Height (inches)	Max. Weight	Height (inches)	Max. Weight	Height (inches)	Max. Weight
60	166	65	195	70	226	75	260
61	172	66	201	71	233	76	267
62	178	67	207	72	239	77	274
63	183	68	214	73	246	78	281
64	189	69	220	74	252	79 and over	295

High-Adventure Risk Advisory to Health-Care Providers and Parents

Northern Tier

Phone: 218-365-4811

Website: www.ntier.org

Northern Tier Experience. Participation at any of the BSA's high-adventure bases or in any unit high-adventure backcountry/wilderness activities can be physically, mentally, and emotionally demanding. Each high-adventure base offers a unique experience that is not risk-free. Knowledgeable staff will instruct all participants in safety measures to be followed. Be prepared to listen to and carefully follow these safety measures and to accept responsibility for the health and safety of yourself and others.

Northern Tier Requirements. Each person must be able to carry a 50- to 85-pound pack or canoe from a quarter-mile to 2 miles several times a day on rough, swampy, and rocky portages and paddle 10 to 15 miles per day, often against a headwind. The portage trails can be very muddy, slippery, and rocky, and those conditions can potentially lead to tripping and falling. All participants must wear boots that cover their ankles while on the trails. Climatic conditions can range from 30 to 100 degrees in summer/autumn and from -40 to 40 degrees in the winter. During the Okpik Experience, each person will walk, ski, or snowshoe along snow-covered trails or across frozen lakes, pulling loaded toboggans or sleds for up to 3 miles—or more if on a cross-country ski trek. Refer to the Northern Tier website for specific information.

Be Prepared. While participating in Northern Tier's canoeing and camping backcountry/wilderness areas, life jackets must be worn at all times when on the water. Crew members travel together at all times. Emergency communications via radio, and in more remote locations by satellite phone, are provided by Northern Tier. Radio communication and/or emergency evacuation can be hampered by weather, terrain, distance, time of day, equipment malfunction, and other factors, and are not a substitute for taking appropriate precautions and having adequate first-aid knowledge and equipment. **Please call Northern Tier at 218-365-4811 if you have any questions.**

Seizures (Epilepsy). The seizure disorder must be well-controlled by medication. A well-controlled disorder is one in which a year has passed without a seizure. Exceptions to this guideline may be considered on an individual basis and will be based on the specific type of seizure and likely risks to the individual and/or other members of the crew.

Diabetes Mellitus. Both the person with diabetes and one other person in the group need to be able to recognize signs of excessively high or low blood sugar and adjust the dose of insulin. An insulin-dependent person who was diagnosed or who has had a change in delivery system (e.g., insulin pump) in the last six months is advised not to participate. A person with diabetes who has had frequent hospitalizations or who has had problems with low blood sugar should not participate until better control of the diabetes has been achieved.

Asthma. Asthma must be well-controlled before participating. This means: **1)** the use of a rescue inhaler (e.g., albuterol) less than once daily; **2)** no need for a rescue inhaler at night. Well-controlled asthma may include the use of long-acting bronchodilators, inhaled steroids, or oral medications such as Singulair. You may not be allowed to participate if:

1) you have asthma not controlled by medication; or **2)** you have been hospitalized/gone to the emergency room to treat asthma in the past six months; or **3)** you have needed treatment by oral steroids (prednisone) in the past six months. You must bring an ample supply of your medication and a spare rescue inhaler that are not expired. At least one other member of the crew should know how to use the rescue inhaler. Any person who has needed treatment for asthma in the past three years must carry a rescue inhaler on the trek. If you do not bring a rescue inhaler, you must buy one before you will be allowed to participate.

Allergy or Anaphylaxis. People who have had an anaphylactic reaction from any cause will be required to keep appropriate treatment with them. You and at least one other member of your crew must know how to give the treatment. If you do not bring appropriate treatment with you, you will be required to buy it before you will be allowed to participate.

Recent Musculoskeletal Injuries and Orthopedic Surgery. Participants will put a great deal of strain on their joints. Individuals who have significant musculoskeletal problems (including back problems) or have had orthopedic surgery or injuries within the last six months must have a letter of clearance from their treating physician to be considered for approval, and Northern Tier should be contacted in advance of participation. Permission is not guaranteed.

Psychological and Emotional Difficulties. Parents and advisors should be aware that no high-adventure experience is designed to assist participants in overcoming psychological or emotional problems. Experience demonstrates that these problems frequently become worse when a participant is under stress from the physical and mental challenges of a remote wilderness setting. Medication must never be stopped prior to participation and should be continued throughout the entire experience.

Cardiac or Cardiovascular Disease. Adults or youth who have a history of chest pain, myocardial infarction (heart attack), a family history of premature heart disease, or heart surgery including angioplasty may consider a physician-supervised stress test. Even if the stress test results are normal, the testing is done without portage packs or canoes and does not guarantee safety. If the results are abnormal, the individual is advised not to participate.

Medication. Each participant who needs medication must bring enough medication for the duration of the trip, as well as enough to store two supplies in two separate locations. Due to the possibility of packs and equipment getting wet, every attempt is made to store medications in two separate packs in different canoes while travelling.

Weight Limits. Each participant in a Northern Tier expedition should not exceed the maximum acceptable weight for height in the table shown in Part C of the Annual Health and Medical Record. Those who fall within the recommended weight limits are much more likely to have an enjoyable trek and avoid incurring injuries and other health risks. Extra weight puts strain on the back, joints, and feet. No participant's weight can exceed 295 pounds.
